This file bears the official seal of the **North Pole Post Office!**

By hanging it in your house, Santa's elves will know to stop by and pick up your letter!

The Story of, "The Letter to Santa"

By Rich F, The Louisiana Hobby Guy

Every year, just before Christmas, Santa's Elves travel the entire globe collecting **letters to Santa** from the post offices!

Some unfortunate children don't get presents from Santa! Why? **Because the elves never find their letters**, since many of them **get lost in the mail or have no stamp!**

So, in an effort to correct this problem for all children, I have created this laser engraved and cut file for you to hang up on your fireplace or Christmas tree, and **place the letter to Santa where the elves can find it!**

In case you're wondering, **YES! I have informed Santa and he has told the elves!**

Just download my files and make sure your children don't get left out!

Merry Christmas to all!
